DETAILED ACTION

The Communications filed on December 18, 2002 have been acknowledged.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 36 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The transitional phrases such as "comprising", "consisting essentially of" and "consisting of" define the scope of a claim. This claim has no transitional phrase. Therefore, the metes and bounds of the claim cannot be readily ascertained (See MPEP 2111.03).

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 2863

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claim 32-35 are rejected under 35 U.S.C. 102(e) as being anticipated by Gunther et al. (US 5,821,975).

Gunther et al. teaches all the claimed invention including:

- a cassette (cassette enclosing 25, 26, Fig. 1a) for use in a printing apparatus

(Abstract, lines 1-2) comprising:

- a housing (housing of cassette, Fig. 1a) in which a reel (26) holding a supply of ink ribbon (29) is arranged, said reel being rotatable with respect to said housing (Fig. 1a) and having a plurality of markings (mark, Abstract, line 12) thereon, said housing being arranged so that said markings are detectable by detecting means (35) external to said cassette to provide information relating to the rotation of said reel (end of ribbon rotation, Abstract, line 11);

- said reel supports a supply of unused ink ribbon (29) or a supply of ink ribbon (29) that has been used;

Art Unit: 2863

- said housing is provided with an opening (21a) through which said markings are detectable;

- said opening comprises substantially transparent material (21a must be transparent in order for the marking to be optically read, Abstract, line 12, Fig. 1a).

Allowable Subject Matter

3. Claims 1, 2, 4-6, 10-30, and 37-43 are allowed.

4. Claim 36 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.
